PROFESSIONAL SUMMARY

Full-stack Software Developer with 3+ years of experience delivering complete client-facing SaaS products from React/Tailwind front ends to Node.js/PostgreSQL backends. Currently at Wipro, building backend automation and APIs in Python and Node.js. Delivered multiple end-to-end client platforms independently, including a multi-tenant HRMS SaaS with live attendance tracking and payment integration.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, JavaScript

Backend: Node.js, Python, Flask, Django, NestJS, REST API Design, RBAC

Databases: PostgreSQL, MySQL, MongoDB

Architecture & Tools: SaaS / Multi-Tenant Architecture, Docker, Git, Linux, Postman

Languages: JavaScript, Node.js, Python, PHP, C, C++

KEY PROJECTS

HRMS SaaS Platform — Client: Sahu Constructions

07/2025 – 11/2025 | *React.js, Node.js, PostgreSQL, Docker, Razorpay*

- Delivered a full-stack multi-tenant HRMS SaaS end-to-end, from React.js UI to Node.js/PostgreSQL backend.
- Built role-based dashboards and workflows for Employee, Manager, HR, and Admin roles.
- Implemented live location and selfie-based attendance capture on the frontend, backed by Node.js APIs.
- Developed payroll, leave, reimbursement, and timesheet modules with approval workflows.
- Integrated Razorpay for subscription billing and deployed the full stack using Docker.

Artist Portfolio Platform — Client: Shubhangi Kedar

11/2025 – 03/2026 | *React.js, Tailwind CSS, Node.js, PostgreSQL*

- Built a full-stack portfolio website end-to-end, including a custom admin panel for content management.
- Developed a responsive, mobile-friendly UI using React.js and Tailwind CSS.
- Built the Node.js/PostgreSQL backend enabling easy add/edit/delete of media and profile content.

CortexAI — Chat and Voice Assistant

01/2025 – 06/2025 | *Python*

- Built a browser-based Python assistant combining chat and voice interaction for user engagement.
- Implemented voice-command handling to drive an interactive, hands-free user experience.

Daily Report System

10/2024 – 12/2024 | *Node.js, PDF Generation*

- Built a full-stack Node.js reporting tool automating daily/monthly data entry and PDF report generation.

EXPERIENCE

Software Developer / Network Automation Engineer

03/2023 – Present

Wipro Limited — Global IT, Consulting & Business Process Services company

- Developed backend services and REST APIs using Node.js and Flask for scalable internal tools.
- Built Python-based automation solutions, reducing manual operational workload by ~30–40%.
- Optimized PostgreSQL database interactions and collaborated cross-functionally in agile sprints.
- Containerized applications using Docker to streamline and standardize deployment.

Backend Developer Intern

01/2023 – 03/2023

LBM Infotech — Software development & tech solutions provider

- Developed backend modules using PHP and MySQL for dynamic applications; optimized query performance.

EDUCATION

B.Sc. Computer Science — KTHM College, Nashik, Pune University (2022) | CGPA: 7.10 / 10
